LUBRICANT COMPANY

CAT Cleaner

- 1 Working** Works while under operation.
- 2 Application:** Both Petrol & Diesel Engines.
- 3 Usage:** 300ml in 70L of Fuel.
- 4 Usage Intervals:** Every 3 months.

DESCRIPTION

International Lubricant Company's Catalytic Converter & Oxygen Sensor Cleaner is a product which is under our "WUO" (Working Under Operation) category. Specially formulated to decarbonise both vehicles and machines and dissolve harmful carbon deposits throughout a fuel system, around oxygen sensors and in catalytic converters in Petrol, Diesel and now suitable in Hybrids.

APPLICATIONS

ILC's CAT Cleaner is a product which is added into the fuel tank before refilling. Can be used in both petrol and diesel fuel systems, highly concentrated for maximum performance.

BENEFITS

- Increase fuel efficiency.
- Maximise engine performance.
- Increase life of catalytic converters & oxygen sensors.
