DESCRIPTION

International Lubricant Company's Eco-Syn C4 5W-30 is a premium Full Synthetic 'Low SAPS' ACEA C4 engine oil developed with the latest Low-Mid SAPS technology required by **Original Equipment Manufacturers** (OEM's) from Renault RN0700, Mercedes-Benz MB 226.51, Ford WSS-M2C934-B.

APPLICATIONS

ILC's Eco-Syn C4 5W-30 is designed for use in 4, 6, 8, 10, 12 cylinder motors with or without turbocharged and supercharged engines that are either petrol, diesel or in light commercial van applications. Suited where OEM's require an ACEA C4 rating, (Refer to the owner's manual/handbook). Due to its special composition this product can be applied in vehicles for which the Renault specification RN0720 is asked and are equipped with modern Three Way Catalysts and Diesel Particulate Filters (DPF's). Developed to extend oil drain intervals and maximize fuel economy.

BENEFITS

- Fuel economy saving technology.
- Extends the life of Diesel Particulate Filters (DPF's)
- Long drain interval technology.
- Engine protecting technology for cleanliness.
- Low Sulfur, Ash and Phosphorus (Low SAPS) Technology.
