## DESCRIPTION

International Lubricant Company's Euro ATF ZF Special is uniquely formulated from high grade synthetic oils that makes this the perfect automatic transmissions fluid choice in the ZF 8HP and in certain ZF 6HP transmissions. Its developed to ensure a smooth and trouble free gear shift and is a contributor of fuel economy in transmissions globally.

## APPLICATIONS

ILC's Euro ATF ZF Special is EXCLUSIVELY intended for the ZF 6, 8 and 9 speed automatic transmissions fitted in the major OEM's like Volkswagen, BMW, Jaguar, Land Rover, Jeep, Chrysler and FIAT group. This ATF fluid can be used in ZF 8HP transmissions, 8HP45, 8HP55, 8HP70 and 8HP90 while also be used in certain ZF 6HP transmissions which are used are used in various VAG models. Perfect for long drain intervals, this product is *Green* in colour.

## BENEFITS

- Important contribution to fuel economy.
- Very stable friction characteristics that enable longer oil-replacement intervals.
- Excellent resistance against foaming, oxidation.
- Outstanding smooth gear shift performance, no vibration.
- Anti-wear protection, significantly extending transmission life.

## APPROVALS & SPECIFICATIONS

VAG G-060-162

BMW 8322 2152426

BMW 8322 2289720 (ATF 3+)

Jaguar 02JDE 26444

Land Rover LR023288

Chrysler 68157995AA

Fiat 9.55550-AV5

(Should not mix transmission fluids, complete flush is required)

(Check owners manual before use)
