DESCRIPTION

International Lubricant Company's Euro Diesel CJ-4 10W-40 is a heavy duty diesel engine oil formulated with unique 'Low SAPS' additives that fulfill the latest requirements of **Original Equipment Manufacturers** (OEM's) Euro 5 and Euro 6 engines equipped with after-treatment systems using Diesel Particulate Filters (DPF's), Diesel Oxidation Catalyst (DOC) or Exhaust Gas Recirculation (EGR).

APPLICATIONS

ILC's Euro Diesel CJ-4 10W-40 is compatible with the latest after-treatment devices installed from OEM's globally. Suited for use in early and late model engines and can be applied in Euro 5 and Euro 6 engines with Selective Catalyst Reduction (SCR) systems that require low ash oil. This engine oil is part of the 'Low SAPS' group of products.

BENEFITS

- High performance oil developed for long drain intervals.
- Outstanding anti-wear properties to keep engines clean.
- Safe lubricating film at very high temperatures to ensure good oil flow.
- Effective protection against bore polishing.
