DESCRIPTION

International Lubricant Company's Super Gear Oil 80W-90 is designed with special Extreme Pressure additives and friction modifiers to reduce hard gear selection. Satisfying the most demanding conditions from low and high torque speed, shockloads and increasing the life of the gearbox.

APPLICATIONS

ILC's Super Gear Oil 80W-90 can be used in manual gearboxes which require an API GL-5 fluid, suitable for cars, trucks, off-road, industrial applications along with final drive, transfer boxes.

BENEFITS

- Protect vital components.
- Advanced anti-wear protection.
- Excellent Thermal Stability.
- Corrosion resistance.
- Reduce component wear.

APPROVALS & SPECIFICATIONS
